

A world map is the central background. It features several red location pins with dashed lines connecting them to various regions: South America, Africa, India, and Southeast Asia. Surrounding the map are four images of different dishes: a bowl of rice and seafood in the top left, a plate of fried chicken with black rice in the top right, a plate of stir-fry in the bottom left, and a plate of rice and vegetables in the bottom right.

# Name that Dish

Look at the images of the signature dishes from around the world. Your task is to identify what it is called and where it is from. You need to do this for every image to complete the challenge. They will start off easy and get harder as you go on!
